

The future:workspace for public administrations

beyond SSL and the future:workspace at KommDIGITALE trade show in Bielefeld, GER.

From November 15th to 17th, 2022, the first KommDIGITALE trade show will take place in Bielefeld, GER. This unique congress gives visitors the opportunity to find out more about the latest innovations and solutions in the field of digitization in public administration. In addition to 90 exhibitors and a wide variety of specialist lectures, the KommDIGITALE Award for digital excellence in public digitization projects will also be presented.

At the premier of KommDIGITALE, beyond SSL GmbH will be present at booth B2 with its brand new future:workspace solution. The main focus of

the German company lies on making workflows efficient, high-performance and, above all, secure, whilst allowing access from any end device, anywhere and anytime.

The approach of a decentralized workplace is nothing new. beyond SSL has set itself the task of refining and optimizing the future:workspace with individual components and innovative methods. By combining the building blocks like

- Apps & Desktops for ZTNA-compliant access to desktops, servers and apps without VPN,
- Office & Communication for secure productivity and collaboration, as well as
- Enterprise Content Collaboration for exceptional control, security and data protection compliance for all files,

a comprehensive solution has been developed which is able to meet the requirements of all companies and public authorities for a decentralized workplace.

A visit to the beyond SSL booth at KommDIGITALE in Bielefeld is therefore worthwhile, because new, innovative approaches and modern technology are always worth a second look, especially in a time of change in the world of work.

About beyond SSL GmbH

beyond SSL focuses on consulting, marketing and sales of solutions related to connectivity, security and privacy. The company was founded by a team of specialists with many years of experience in various IT and management areas. In close cooperation with various product providers, currently RemoteSpark, TalariaX, FileCloud, ONLYOFFICE, and technology partners such as Fortinet, F5, Hillstone and Pulse Secure, beyond SSL and its partners support customers in all industries and of all sizes. We attach great importance to personal care and excellent support. Customers and partners benefit equally from a pre-selection of solutions with an excellent cost-benefit ratio.
